PROGRAM DESCRIPTION: The "Current Issues in Immunization" webinars are live, 1-hour presentations combining an online educational presentation with a live question and answer session. These presentations are designed to provide health care providers with the most up-to-date information on immunization and are presented by the National Center for Immunization and Respiratory Diseases.

OBJECTIVES: At the conclusion of the session, the participant will be able to:

Describe an emerging immunization issue.

List a recent immunization recommendation made by the Advisory Committee on Immunization Practices.

Locate current immunization resources to increase knowledge of team’s role in program implementation for improved team performance.

Implement disease detection and prevention health care services (e.g., smoking cessation, weight reduction, diabetes screening, blood pressure screening, immunization services) to prevent health problems and maintain health.
